WORK EXPERIENCE

Full Stack Developer : Spark Tech by Aitela

Nov 2023 - Nov 2024

1. Project : Avocat Spark

- Played a key role in developing **Avocat Spark**, a **SaaS** platform designed to streamline law firm management.
- **Developed** dashboards for both **lawyers** and **clients**, enabling efficient management of cases, appointments, and hearings.
- **Implemented** case management tools to **organize**, **track** progress, and **securely** store critical information.
- Designed an **automated** appointment **scheduling system** to streamline the management of consultations and court hearings.
- **Integrated** an **email notification** system for **appointment reminders** and **password resets**, keeping users informed in real-time.

2. Project : Spark Tech Website

- **Responsible** for building the company's website as a full-stack developer, **creating** various **pages** with a **responsive** and user-friendly **design** for all screen sizes.
- **Ensured** an excellent **user experience** by handling form submission errors and implementing **interactive animations**.
- **Developed** an admin interface for **CRUD** operations on job postings, products, applications, and contact form submissions, including **pagination**, **editing**, and **deletion** features.
- **Optimized** the rendering of elements on both the client and admin sides, **ensuring** a **smooth** and performant interface.
